

Connecting the field to the ER

Improving the quality of care
with enhanced communication

Whatever the situation, FirstNet gives first responders – **that means EMTs and trauma center staff like you** – the ability to connect and communicate with other emergency personnel every day. So you can keep the lines of communication open when it matters most. **Plus, you get:**

Highly Reliable Network Coverage

FirstNet gets a head start by launching on the nation's best network* featuring more than 99% population coverage.

First Priority™

When emergencies strike, networks can be congested. FirstNet gives you the access to the priority and preemption capabilities you need when every second counts.

Trusted Security and Resiliency

Designed with heightened security in mind to help resist physical and cyberthreats. Ruggedized to help withstand power outages and backed by a dynamic, highly trained disaster recovery organization.

Dedicated Support

Your dedicated technical support is available 24/7/365 – and staffed with highly trained professionals who have experience in emergency communications.

Affordable Plans with Advanced Features

So much more than a competitive rate plan – this nationwide broadband network comes with unique capabilities.

No Throttling

And there's no throttling for FirstNet subscribers anywhere in the U.S.

Available

This powerful broadband LTE network provides a reliable and highly secure connection to the ER. This means healthcare professionals and first responders on FirstNet can get the voice, text and data they need when lives are at stake.

Operable

Experience faster response times and enhanced situational awareness with improved information-sharing across agencies, disciplines and jurisdictions.

Innovative

Foster an ecosystem of innovation using advanced technologies, applications and devices that help first responders on FirstNet save lives and protect communities.
