FirstNet™

Created for Public Safety by Public Safety

A nationwide public safety broadband network to provide prioritized broadband connectivity to those who risk everything

Six Key Facts

1. Highly Reliable Network Coverage

This network gets a head start by launching on the nation's best data network* – featuring more than 99% population coverage.

2. Priority with Local Control

We all know what can happen when a disaster strikes – congestion bogs down wireless networks. FirstNet and AT&T deliver Quality of Service, along with Priority, and for Primary Users, Preemption across our network. Public safety professionals get the access they need to keep the lines of communication open… when it matters most.

3. Trusted Security and Resiliency

Designed with superior security in mind to help resist physical and cyber threats. Ruggedized to help withstand power outages, and is backed by a dynamic, highly-trained disaster recovery organization.

4. Advanced Public Safety Apps and PSE homepage

A dedicated public safety app store offers highly-secure and relevant first responder applications, delivering critical interoperability and ability to talk with team members from other agencies, states, or local rescue teams. All apps pass a rigorous vetting process focused on meeting the superior standards, enhancing safety and situational awareness.

5. Dedicated Support

Your dedicated technical support is available 24 hours a day, 7 days a week, 365 days a year and staffed with highly-experienced trained professionals who have experience and background in emergency communications and understand the demands of public safety.

6. Affordable Plans with Advanced Public Safety Features

So much more than a competitive rate plan – this world-class broadband network comes with unique public safety capabilities.

FirstNet™

Available

This powerful **broadband LTE network** provides first responders voice, data, video, images and text. Eliminates concerns about network congestion with available priority and preemption.

Operable

Experience **faster response times** and **enhanced situational awareness** with improved information sharing across agencies, disciplines and jurisdiction.

Innovative

Foster an ecosystem of **innovation** through public safety applications and devices that give first responders advanced technologies to help **save lives** and **protect communities**.
